Profile

Full Stack Developer with 1+ year of hands-on experience building and deploying production-grade web applications using React.js, TypeScript, NestJS, and Prisma. Strong expertise in designing secure REST APIs, integrating payment gateways (PayPal, Trustly), and handling real-time data using WebSockets. Experienced in AWS EC2 deployments, process management with PM2, and performance optimization for scalable systems. Proven ability to work on live business-critical platforms and deliver features end-to-end.

Skills & Abilities

- **Programming Languages:** JavaScript, TypeScript, Python
- **Frontend:** React.js, Zustand, Redux, Redux Toolkit, Material-UI, CSS, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, NestJS
- **Databases:** SQLite, MongoDB, PostgreSQL
- **ORM:** Prisma
- **API Development & Testing:** Postman, REST, WebSockets
- **Cloud Platform:** AWS (EC2 deployment via SSH, PM2 process management)
- **Version Control:** Git, GitHub
- **Third-Party Integrations:** Sportradar, Mercoa APIs, PayPal APIs, Trustly
- **Authentication & Security:** JWT

Experience

FULL STACK DEVELOPER | MOBILEFIRST APPLICATIONS PVT LTD | DEC 2024 - Present

- Designed and developed scalable REST APIs using **NestJS, Prisma, and MongoDB** for production applications.
- Implemented **JWT-based authentication and role-based access control (RBAC)** to secure critical application flows.
- Integrated **third-party APIs and payment gateways (PayPal, Trustly)** ensuring secure and reliable transactions.
- Worked on **real-time features using WebSockets and scheduled cron jobs**, enabling frequent live data updates.
- Optimized backend queries and API performance, improving response times and overall system reliability.
- Deployed and managed applications on **AWS EC2 using PM2**, handling environment configurations and uptime.

TRAINEE FULL STACK DEVELOPER | MOBILEFIRST APPLICATIONS PVT LTD | APR 2024- NOV 2024

- Built responsive frontend components using **React.js and Tailwind CSS**, focusing on reusable UI patterns.
- Assisted in backend development using **Node.js and NestJS**, contributing to API development and integrations.
- Collaborated with senior developers to debug issues, improve performance, and deliver features on schedule.

Education

Master of Computer Applications (MCA-2023)- Dravidian University | 8.07 CGPA

Bachelor of Science (B.Sc.) - Sri Sai Baba National Degree & PG College | 7.01 CGPA

Projects

Legal Template Management Platform - Legacy Assurance Plan

- **Backend Lead** on a legal-tech platform, coordinating directly with the client to define project requirements and deliver features.
- Spearheaded development of a secure platform used by attorneys and corporate counsel to streamline estate planning workflows.
- Assigned tasks and conducted **code reviews** for team members, ensuring code quality, security, and adherence to best practices.
- Architected and implemented secure authentication and RBAC, reducing authentication-related support tickets by **~30%**.
- Improved clause API response time by **~25%** through indexed queries and optimized pagination on the admin UI.
- Designed and built a rich document editor with AI-powered placeholder detection, cutting document rendering time by **~30%** with optimized logic.
- Enabled independent practice flows, accelerating case setup by **~50%** for private attorneys.
- Created an interactive onboarding system with session-aware tracking, reducing onboarding drop-off by **~40%**.

Rafter Sports - Sports Betting Platform

- Backend Engineer on a sports betting platform, integrating live data from **SportRadar** for Soccer, Tennis, Basketball, and Hockey using **NestJS** and **Prisma**.
- Developed real-time data fetching with **WebSockets** and cron jobs to update odds every minute, ensuring timely and accurate data updates.
- Led the database architecture design for live game and betting data, ensuring scalability for a high-traffic application.
- Implemented a custom API for withdrawal requests and integrated **PayPal** and **Trustly** APIs for secure payment processing.
- Designed an admin dashboard to manage payments, withdrawals, and betting transactions, ensuring smooth operations.
